CHINESE MUST LEAVE

CITIZENS OF EUREKA AROUSED OVER THE IMPORTATION OF COOLIE LABOR.

Eureka, Cal., Oct. 3.—At a mass meeting of prominent citizens and union labor leaders of this city last night it was decided that twenty-seven Chinese brought here by the Tallant Company of Astoria, Ore., to work in a salmon cannery at the mouth of the Eel river, must go. Mass meetings have been held in various parts of Humboldt county since the arrival of the Chinese on the steamer Roanoke last Saturday, condemning the action of the Ferndale Chamber of Commerce in permitting the entrance of coolie labor. Delegations from Fortuna and Eureka visited Ferndale and endeavored to persuade the merchants there to withdraw their countenance to the project, but without avail.

At the meeting here a committee of fifteen, including H. L. Ricks, a capitalist; H. H. Buhne, a merchant; James P. Mahan, an attorney; ex-Mayor W. S. Clark, a capitalist, and men prominent in labor circles was appointed to confer with the Humboldt county Chamber of Commerce. The people of the county are aroused and the scenes enacted on February 13, 1885, when the Chinese were driven out of this city and county for killing a citizen as the result of a highlander war, may be re-enacted.

It is said that the Tallant Company, which operates the cannery, declares its intention to call on the Governor for militia in the event any demonstration is made against the Chinese. Since 1885 there has been only one Chinese in Humboldt county.

MOSES HAD BEST WAY

MEANS OF DISPOSING OF GARBAGE BEST IN TIME OF THE PATRIARCH.

New York, Oct. 3.—Vice-Chancellor Finny, while hearing, yesterday, a case at Newark, N. J., gave it as his opinion that in the matter of garbage disposal there has not been any improvement made over the method employed by Moses.

An order directing the Atlantic Coast Sanitary Company to show cause why it should not be restrained from operating a crematory at Long Branch in a manner which it is claimed causes annoyance to residents was being argued.

Thomas P. Fay of Long Branch was asked by the Vice-Chancellor what remedy he had to propose to do away with the disagreeable odors, and when Mr. Fay suggested the use of "an odorless dryer" the Vice-Chancellor said:

"It is perfectly absurd. You can't burn that stuff without making yourself a perfect nuisance. You had better go into the woods and bury it. That is the plan Moses adopted and I have never heard of any improvement on it."

Final decision was reserved.
